## APAC 757 Engineered Plank & Parquet Wood Flooring Adhesive Bond Warranty

All Purpose Adhesive Company (APAC) warrants *757 Engineered Plank & Parquet Wood Flooring Adhesive* to be an excellent adhesive for bonding parquet, and engineered hardwood plank in all lengths and widths to a properly prepared, and approved substrate for five (5) years. APAC warrants 757 will not exhibit cohesive bond failure, for this same period, when applied in a manner consistent with all APAC, and the wood flooring manufacturers installation instructions. Installation site must meet manufacturers specifications for flatness, as well as proper floor preparation. The jobsite, and flooring materials must be acclimated to manufacturers specifications before installation, and the installation site must be climate controlled there after to insure a stable environment for the wood flooring. Do not use to install bamboo, teak, vinyl impregnated plank, or exotic imported products like Brazilian Cherry, and mahogany. Contact APAC before installation of those flooring materials, most can be installed using APAC U-984 Universal™ moisture cured urethane wood flooring adhesive. APAC's minimum requirement is that substrate flatness must not exceed 3/16 inches variance in 10 foot, floors exceeding this tolerance may, exhibit hollow spots. Hollow spots are not caused by the adhesive, and therefore are not an adhesive related complaint.

Swelling, buckling, and cupping, of wood flooring installations is always related to moisture in the environment, either from the substrate below, or from topical moisture, and/or elevated relative humidity. These are site, or use related problems, and are not covered under this warranty.

Wood flooring is a dynamic product, and will expand, and contract with changes in temperature, and humidity. Therefore periodic seasonal separation, or gapping between planks is a natural occurrence, and is not considered an adhesive related complaint.

Should our product prove defective APAC will pay for labor, and materials to repair or replace any section of flooring deemed not serviceable.

This warranty is also contingent upon the following:

1. Products must be installed in accordance with APAC's most recent published literature and labels.
2. The evaluation of a potential claim by an APAC representative and written approval of any repairs or replacement.
3. APAC reserves the right to request samples of the surfacing and cured adhesive.
4. Submittal of the surfacing manufacturer's warranty, when applicable.

*Exclusions: This warranty is non-transferable, and applies only to the original owner of the installation. This warranty does not cover bond failure caused by circumstances out of APAC's control which include, but are not limited to excess moisture in substrates, excess alkali on substrates, damage caused by flooding, storms, natural disasters, broken pipes, defective substrates, or defective flooring products. We exclude incidental, or consequential damages under this warranty. If a warranty claim is filed APAC reserves the right to inspect the claim prior to any repairs being done. Failure to notify, and allow time for APAC to inspect the installation in question will void this warranty.*
